
SANITAP PROTECTION OF ENVIRONMENT POLICY

SaniTap is committed to minimizing our environmental impact and promoting sustainability in all aspects of our operations. We recognize the importance of protecting the environment for current and future generations. This Protection of Environment Policy outlines our commitments and actions to reduce our carbon footprint, conserve natural resources, and promote environmentally responsible practices.

Environmental Commitments

Compliance: SaniTap is committed to complying with all applicable environmental laws, regulations, and standards. We will continually monitor changes in environmental requirements and ensure our operations remain in full compliance.

Pollution Prevention: We strive to prevent pollution by adopting practices that minimize waste generation, emissions, and the release of harmful substances into the environment. We will implement pollution prevention measures, such as waste reduction, recycling, and proper disposal of hazardous materials.

Resource Conservation: SaniTap is dedicated to conserving natural resources, including water, energy, and raw materials. We will promote efficient use of resources through conservation programs, adopting sustainable technologies, and implementing energy-saving measures.

Climate Change Mitigation: Recognizing the urgent need to address climate change, SaniTap is committed to reducing greenhouse gas (GHG) emissions from our operations. We will implement measures to minimize our carbon footprint, including energy efficiency initiatives, renewable energy adoption, and offsetting strategies.

Biodiversity Protection: SaniTap values biodiversity and recognizes its importance in maintaining ecological balance. We will take measures to protect and enhance biodiversity in our operations, including promoting sustainable land use practices and avoiding activities that harm ecosystems and endangered species.

Supplier and Contractor Engagement: We will collaborate with our suppliers and contractors to ensure they share our commitment to environmental sustainability. We will consider environmental criteria in our procurement process, prioritize suppliers with strong environmental practices, and promote dialogue on sustainable solutions.

Engaging with Stakeholders: SaniTap will engage with our stakeholders, including employees, customers, communities, and regulatory bodies, to seek their input, feedback, and collaboration on environmental matters.

Policy Communication and Review: This Environment Policy will be communicated to all employees, contractors, and stakeholders. It will be publicly available on our website. We

will review and update this policy periodically to ensure its alignment with evolving environmental standards and practices.

Reporting

Reporting of Violations of Protection of Environment Policy

Reporting of any suspicions of violations of our Protection of Environment Policy should be reported, in confidence, to the SaniTap Grievance Officer and sent via email to confidential_grievance@sanitap.org with the subject line 'Suspected violations of Protection of Environment Policy'.

SaniTap is dedicated to being a responsible steward of the environment. By integrating environmental considerations into our decision-making processes, adopting sustainable practices, and engaging our stakeholders, we aim to minimize our ecological footprint and contribute to a more sustainable future for all.
